

# TOUGHTTEK® CM20

Continuous Feed Mixer

## CONTINUOUS MIXING MEANS CONTINUOUS WORK!

Achieve up to 2X higher output than traditional mixing methods! The perfect way to cut labor costs while increasing productivity. Designed to deliver the most consistent, high-quality mix throughout the job, this mixer is simple to operate and transport. Convenient 120V power enables it to be used virtually anywhere.

### *Where convenience meets productivity!*

Just plug into a standard 120V outlet, connect water, and you are ready to start continuous mixing anywhere on the site!

## BENEFITS YOU'LL APPRECIATE!

**High performance** — Mix and pump up to 40 bags of pre-blended stucco or mortar, or 100 bags of self-leveling material, per hour to get the job done faster

**Lightweight and portable** — Weighs only 210 lb for easy maneuvering around jobsite

**Plug and play** — Works on a standard 120V outlet for maximum convenience

**Saves labor** — Let the pump do the work so you can get more done!

**Easy maintenance** — Quick no-tools disassembly for cleaning and transport

# TOUGHTTEK CM20

Continuous Feed Mixer

## LET THE MIXER DO THE WORK!

Remove the manual process of measuring and mixing by hand or with a batch mixer and switch to Graco's ToughTek CM20 continuous mixer. Simply break pre-blended material into the hopper, turn the system on, and adjust the water flow rate to achieve a desired mix. The CM20 will remain constant throughout the day producing a consistent material mix.

### Simple Controls

- Easy-to-use on/off toggle switch
- One-speed design for ultimate simplicity

### Large Capacity Hopper with Bag Breaker

- Galvanized construction for exceptional wear resistance
- Durable metal teeth automatically cut bags for easy opening
- Available optional lid keeps debris out while protecting contents

### Quick-knockdown Mixing Section

- Tool-less for ease of assemble and disassembly
- Flexible composite mixing tube for easy cleaning
- Durable composite mixing blades can be adjusted to deliver the perfect mix

### Water Flow Valve

- Allows precise adjustment of water flow for a perfect mix — every time
- Eliminates need to measure water

### Low Power Requirements

- Works on standard 120V outlet
- No electrician or rewiring needed!

### Compact and Portable

- Durable steel frame can be removed or folded down for transport
- Oversized wheels and integrated handle for easy navigation through any job site
