

HUSKY® 3250

Three-inch high-flow air-operated
double diaphragm pump

TACKLE TOUGH TRANSFER JOBS

Transfer up to 250 gpm, including high
viscosity materials.

PROVEN RELIABILITY

Based on Graco diaphragm pump platform

BUILT TO LAST

Heavy duty design offers long life, increased
productivity and lower overall cost of ownership.

EASY MAINTENANCE

Fewer parts than industry peers with an externally
accessible air valve for fast and easy service.

MADE IN THE USA WITH
GLOBAL COMPONENTS

THERE ARE NO EQUALS

Husky 3250 air-operated double diaphragm pumps are loaded with features to help you get the job done right, every time. Graco pumps provide process solutions for numerous abrasive and corrosive applications.

RUGGED CONSTRUCTION

Heavy-duty design for long life

- Four bolt joint design provides even sealing pressure for leak-free operation

MODULAR AIR VALVE

Stall-resistant, efficient operation

- Quick replacement feature with easy four-bolt design

PILOT VALVES

Spring loaded for fast change over

- Externally serviceable

HIGH PERFORMANCE

Up to 250 gallons per minute

- 125 psi

THE GRACO AIR VALVE - SIMPLE BY DESIGN

Built to save you money

- Fast operating, non-stalling
- Consumes up to 30% less energy
- Externally serviceable in about 5 minutes
- Requires no lubrication, no oilers needed
- Modular with only 13 parts, including the housing
