

ALWAYS INNOVATING. ALWAYS RESPONSIVE.

For nearly a century, Graco has designed, delivered and supported solutions that you use every day. We help simplify everyday tasks and improve productivity for forward-thinking workers and businesses around the world.

Whether you're servicing vehicles, operating heavy equipment, performing maintenance repairs, working on an oil rig or running manufacturing lines, we're your one trusted source for proven lubrication equipment and bulk fluid management solutions designed to maximize your profitability. Because we understand just one hour of downtime can equal tens of thousands in lost revenue.

INNOVATIVE

We listen to our customers and adapt to their needs. Our investment in R&D is unparalleled, empowering Graco to create more reliable, connected and easier-to-use automatic lubrication equipment, bulk fluid management and fluid transfer systems.

QUALITY

From our best-in-class manufacturing processes, rigorous product testing and industry's best warranty, you always know that Graco solutions are going to get the job done – and stand the test of time. That's why you can find Graco products over 50 years old still in operation.

CONSULTATIVE

Being a consultative partner takes work – and we're always up for it. Graco and our distributors want to work with you to identify, design and install the best solutions for your needs to ensure you receive the maximum ROI on your investments.

RESPONSIVE

When you need an answer, we're just a phone call away. Our support team is committed to providing you with a superior customer service experience and a reliable and fast response. Because we know downtime means lost revenue.

Graco Resources

Here at Graco, we take pride in delivering tools and solutions that help you succeed every day. Like any project, the work is never truly finished. From continuous R&D to A+ Customer Service, we're always looking for new ways to bring you value.

BULK FLUID MANAGEMENT

Use fluid management systems to monitor your consumption and improve your inventory control. Our solutions empower you to dispense precise volumes of oil, monitor tank levels and generate analytics to improve profitability and simplify decision-making.

PULSE PRO

- **Transparency:** Monitor every drop, every time – automatically
- **Accountability:** Track issues to the source
- **Integration:** Capture data, integrate with popular DMSs and share data with key stakeholders quickly
- **Inventory Management:** Monitor fluid inventory and schedule refills to minimize delays and excessive costs

PULSE FC

- **Control:** Know exactly how much fluid is dispensed
- **Wireless:** Fast, easy, wire-free setup and configuration
- **Reporting:** Generate simple reports to make more informed decisions
- **Expandable:** Add fluids or dispense points seamlessly, or easily upgrade to Pulse Pro for advanced fluid management

PULSE LEVEL

- **Visibility:** Optimize deliveries with greater bulk tank level monitoring
- **Technology:** Multiple communication options including Cellular and Wi-Fi
- **Wireless:** Simple web-based software with no wires to install allows access from anywhere
- **Reporting:** Generate customizable reports, alerts and automated emails
- **Fluid Types:** Petroleum and synthetic-based oils, fuel, water/wastewater, antifreeze/coolant, windshield wash, waste oil and diesel exhaust fluid (DEF)

FLUID DEFENDER

- **Uses:** High level alarm and shut-off, remote fill alarm, low level and shut-off, low level alarm and remote fill shut-off
- **EPA Compliance:** Reduce risk of fluid spills and compliance issues
- **Capabilities:** Monitor up to 5 tanks and operate up to 5 air control solenoid valves
- **Simplicity:** Install one box near bulk tanks, then run remote lights to fill and evac stations across the shop to keep visibility into tank condition without bulky equipment everywhere

AUTOMOTIVE SERVICE EQUIPMENT

We've got you covered for automotive shop equipment. From cord reels, dispense guns and meters to hose reels, pumps and dispense packages, our solutions help you increase production and decrease downtime and waste.

PUMPS

- **Fluids:** Oil, grease, gear lube, ATF, antifreeze, washer fluid, waste oil, diesel, diesel exhaust fluid (DEF)
- **Power:** Electric, pneumatic, hydraulic
- **Max Output Volume Range:** Up to 31 gpm (117 lpm) of oil or 57 lb/min (26 kg/min) of grease

METERS AND DISPENSE VALVES

- **Fluids:** Oil, grease, gear lube, ATF, antifreeze, washer fluid, waste oil, diesel exhaust fluid (DEF)
- **Models:** Manual, preset, in-line – digital or mechanical
- **Max Flow Rates:** Up to 20 gpm (76 lpm)

FLUID RECLAIM

- **Fluids:** Oil, antifreeze
- **Fluid Capacity:** Up to 30 gal (113 l)
- **Evacuation:** Gravity and pneumatic

REELS

- **Types:** Oil, grease, gear lube, ATF, air, water, antifreeze, washer fluid, waste oil, diesel, diesel exhaust fluid (DEF), electric, light
- **Drive Options:** Spring, hydraulic, electric and pneumatic
- **Hose Length:** Up to 150 ft (46 m)

DETERMINE THE RIGHT SOLUTION

Answer a few questions about what is important to you and we will recommend the best fluid management solution to exceed your expectations.
